RetailMeNot Shoppers Trend Report: A Majority of Consumers (80%) Plan to Buy High-Tech Gifts During the Holiday Shopping Season

- Three quarters of consumers wanting desktops or laptops this season say they want a PC (75%) more than a Mac (25%)
- 45% of consumers are likely to use a mobile device (such as a smartphone or tablet) when shopping for the holidays this year.

AUSTIN, Texas, Nov. 21, 2012 PRNewswire/ -- RetailMeNot.com (www.retailmenot.com), the largest online coupon site in the United States, today released the consumer electronics edition of its Shoppers Trend Report (STR), revealing findings from a poll conducted by The Omnibus Company (http://www.omnibus.com) on this year's most wanted high-tech gifts, consumer shopping preferences and purchasing trends.

(Logo: http://photos.prnewswire.com/prnh/20120308/DA66724LOGO-b)

"Long story short, consumer electronics are back on shopping lists for 2012, with 80% of consumers saying that they plan to buy a tech item for the holidays," said Trae Bodge, senior editor of RetailMeNot's Insider magazine. "This could be the year where long-needed upgrades in consumer electronics are what gift recipients will find under the Christmas tree."

PURCHASING TRENDS

- A majority of consumers (80%) plan to buy high-tech gifts during the holiday shopping season.
 - Only half (50%) of consumers say it is likely they will receive high-tech gifts this holiday season.
 - People ages 18–29 are the most likely to expect they'll receive high-tech gifts (78% vs. 41% of those 30 and older).
 - Men are more likely than women to believe it's likely they'll get high-tech gifts (57% versus 44%).
- Most consumers (58%) wait for holiday sales to buy or upgrade technology items.
- When buying a technology-related gift, 67% of consumers are most likely to buy a product that best fits their budget, while 22% are most likely to buy the product that is the best quality, regardless of price.
 - Women are more likely than men to buy a product that best fits their budget (72% versus 61%).
- In the spirit of giving, 28% of consumers give their old high-tech items to friends or family; fewer (20%) sell technology they are no longer using.

"It also appears that the use of mobile technology is increasingly a part of the holiday shopping experience, as 74% of consumers think it would be helpful to be alerted to deals, sales or coupons on a mobile device while shopping in-store. Consumers should try out the new and free RetailMeNot Coupons app for iPhone to help save money while shopping in stores this holiday season," added Bodge.

SHOPPING PREFERENCES

- 45% of consumers are likely to use a mobile device (such as a smartphone or tablet) when shopping for the holidays this
 vear.
- 74% of consumers think it would be helpful to be alerted to deals, sales or coupons on anobile device while shopping in
- Consumers are most likely to buy technology items from a retailer that carries several brands (75%), versus directly from a manufacturer (16%), or from a merchant that refurbishes used products (9%).
- Additionally, 57% of consumers think they can generally get a better deal on technology items by shopping online versus
 in-store.
 - While most people believe they can get better deals online, those over 60 years of age still look to physical stores for the best deals (52% vs. 40% of 18- to 59-year-olds).

Survey Methodology:

This survey was conducted by The Omnibus Company between November 6 and November 12, 2012, among 1,091 U.S.-based consumer ages 18 and over using an email invitation and an online survey. Quotas are set to ensure reliable and accurate representation of the entire U.S. population ages 18 and over.

Results of any sample are subject to sampling variation. The magnitude of the variation is measurable and is affected by the number of interviews and the level of the percentages expressing the results. In this particular study, the chances are 95 in 100 that a survey result does not vary, plus or minus, by more than 3 percentage points from the result that would be obtained if interviews had been conducted with all persons in the universe represented by the sample. The margin of error for any subgroups will be slightly higher.

About RetailMeNot.com

RetailMeNot.com (www.retailmenot.com) is the leading consumer destination for collaborative online coupon, deal and promotional code hunting and sharing. Our mission is to help consumers save money and enjoy a hassle-free discount shopping experience.
