

## RetailMeNot Shoppers Trend Report Shows 73% of Moms Surveyed Are Hoping for a Gift on Their Special Day

*67% of survey respondents - spouses and children with mothers - plan to spend \$100 or less on a Mother's Day gift*

AUSTIN, Texas, May 9, 2012 /PRNewswire/ -- RetailMeNot.com ([www.retailmenot.com](http://www.retailmenot.com)), the largest **online coupon site** in the United States, released today in its Mother's Day edition of the Shoppers Trend Report that despite what moms may say, **73% of moms surveyed want a gift for Mother's Day**. The RetailMeNot survey jointly conducted with Ipsos Public Affairs ([www.ipsos.com](http://www.ipsos.com)), also found that **42% of spouses surveyed do not intend on buying a gift for their partner this Mother's Day**, setting the stage for what could be time spent in the doghouse.

### Other key findings include:

- 14% of all respondents have at one time forgotten to wish their mom a happy Mother's Day!
- Men are more likely than women to forget Mother's Day, with 20% of men surveyed saying they have forgotten to wish their mom well on the special day in the past (as opposed to 8% of women surveyed).
- A phone call is the most common mode of communication used by those surveyed (43%), followed by an in-person conversation (39%) or a greeting card (38%). Perhaps a testament to tech-savvy moms everywhere, 20% typically greet mom via social media, email or text message.
- When asked what they are most hoping to get as a gift this year, the majority of mom respondents (52%) reported they wanted items that cost money.
- 34% of mom respondents indicated that they prefer gift cards (19%) or **flowers** (15%) as the two top gifts for Mother's Day.
- When it comes to celebrating Mother's Day with a meal, mom respondents are most likely to prefer a fancy dinner (38%) or brunch (32%) over breakfast in bed (7%).

### Methodology for Ipsos Survey

*These are some of the findings of an Ipsos poll conducted April 26-30, 2012. For the survey, national samples of 1,009 adults aged 18 and older from Ipsos' U.S. online panel were interviewed online, including 385 mothers of a child of any age. Weighting was then employed to balance demographics and ensure that the sample's composition reflects that of the U.S. adult population according to Census data and to provide results intended to approximate the sample universe. A survey with an unweighted probability sample of 1,009 and a 100% response rate would have an estimated margin of error of +/- 3.1 percentage points. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error.*
